

***Fits these roll bar dia: 1 1/2", 1 3/4", 2"***

Our aluminum roll bar clamps are designed to hold our Power Tank brackets to roll bars but they can be used to clamp many other accessories to your roll bar. When used with our Power Tank brackets there is no drilling needed unless a custom positioning is required. If so, you will need to drill 7/16" holes.

Shim Chart for **SMALL Clamps:**

| Your rollbar dia: | Use this shim: |
|-------------------|----------------|
| 1 1/2"            | 1/4" thick     |
| 1 3/4"            | 1/8" thick     |
| 2"                | No Shims       |
